Georgia's Fire Service Annual Report

2011-2015

OFFICE OF
INSURANCE AND SAFETY FIRE COMMISSIONER

RALPH T. HUDGENS
COMMISSIONER OF INSURANCE
SAFETY FIRE COMMISSIONER
INDUSTRIAL LOAN COMMISSIONER

August 1, 2016

SEVENTH FLOOR, WEST TOWER
FLOYD BUILDING
2 MARTIN LUTHER KING, JR. DRIVE
ATLANTA, GEORGIA 30334
(404) 656-2056
www.oci.ga.gov

Members of the Georgia Fire Service,

The State Fire Marshal's Office is publishing its annual five year Fire Service Report reflecting information provided by the Georgia Fire Service for the sixth year. As your Safety Fire Commissioner, I am proud to say that Georgia continues to have some of the finest firefighters in the nation. To the men and women of this profession who display daily their expertise, professionalism, and heroism to the citizens of Georgia, I say thank you.

My commitment in assisting the fire service with obtaining some of their goals and objectives identified in their 2012 strategic plan required the implementation of the ImageTrend data system. In listening to your concerns regarding access to a more user friendly system, we purchased the system this past year which utilizes a web-based application. This was implemented beginning August 2015, with the goal to increase reporting and obtain more factual and accurate information. From 2011-2015, 421 fire departments reported over 4.2 million fire and non-fire calls. Based on our approach with the implementation of the ImageTrend system and the staff's hard work, we have had an increase of fire reporting. In fact, based upon the US Fire Administration's NFIRS audit for 2015, we had the second highest net change increase of reporting departments in the country. I deeply appreciate the commitment of the fire departments that have participated by providing this information increasing our reporting status by 13.3%.

From 2011-2015, fire department reports identified 217,474 actual fires, which resulted in 613 fire deaths, 3,287 civilian injuries and over $1.6 billion in property loss. Last year, a fire occurred in Georgia every 13 minutes and 36 seconds. The kitchen or cooking area was the most frequently identified area of origin in accidental home fires.

The information in this report is being provided to help you, the fire service, better understand the fire problem and its future impact on our state and its citizens. Injuries, loss of life, and property damage resulting from all fires remains a source of great concern to us all. I am committed to continuing the work to simplify the reporting process in gathering information from all departments, regardless of their size. This vital information can be used to analyze the state and local fire problems and to assist each department in its community risk reduction efforts.

I call upon all our citizens to join me in promoting fire safety and fire prevention throughout the year, as we continue to focus on the Community Risk Reduction issues being identified. With your continued efforts, we can reduce fire loss in our state and make it a safer place for everyone.

Respectfully,

Ralph T. Hudgens
Insurance and Safety Fire Commissioner

THE OFFICE OF INSURANCE AND SAFETY FIRE COMMISSIONER DOES NOT DISCRIMINATE ON THE BASIS OF RACE, COLOR, NATIONAL ORIGIN, SEX, RELIGION, AGE OR DISABILITY IN EMPLOYMENT OR THE PROVISION OF PROGRAMS OR SERVICES

With honor they served

Georgia's Fire Clock

2011

One person died in a fire every 3 days, 13 hours

One fire reported every 10 minutes and 13 seconds

One non-fire/non-EMS is reported every 2 minutes and 31 seconds

One false alarm is reported every 9 minutes and 55 seconds

One vehicle fire is reported every 1 hour and 13 minutes

One EMS call is reported every 1 minute and 10 seconds

One outside fire is reported every 21 minutes and 41 seconds

One fire department responded every 4 seconds

One intentionally set fire is reported every 3 hours and 14 minutes

One structure fire is reported every 30 minutes and 52 seconds

Data revised based upon new data received into the NFIRS since the 2015 Report was published.

Georgia's Fire Clock

2013

One person died in a fire every 2 days, 16 hours and 53 minutes

One fire reported every 15 minutes and 26 seconds

One non-fire/non-EMS is reported every 2 minutes and 56 seconds

One false alarm is reported every 9 minutes and 37 seconds

One vehicle fire is reported every 1 hour, 23 minutes and 24 seconds

One EMS call is reported every 1 minute and 2 seconds

One outside fire is reported every 37 minutes and 12 seconds

One fire department responded every 40 seconds

One intentionally set fire is reported every 10 hours and 9 minutes

One structure fire is reported every 38 minutes and 53 seconds

* Data revised based upon new data received into the NFIRS since the 2015 Report was published.

Summary By Incident Type

Report Period: From 01/01/2013 to 12/31/2013

All Selected Fire Departments

Calls By Incident Type

	Frequency	Percent Of Total Calls	Mutual Aid None	Mutual Aid Given	Mutual Aid Received	Other Aid Given	Invalid Aid Flag	Exposures	Total Incidents

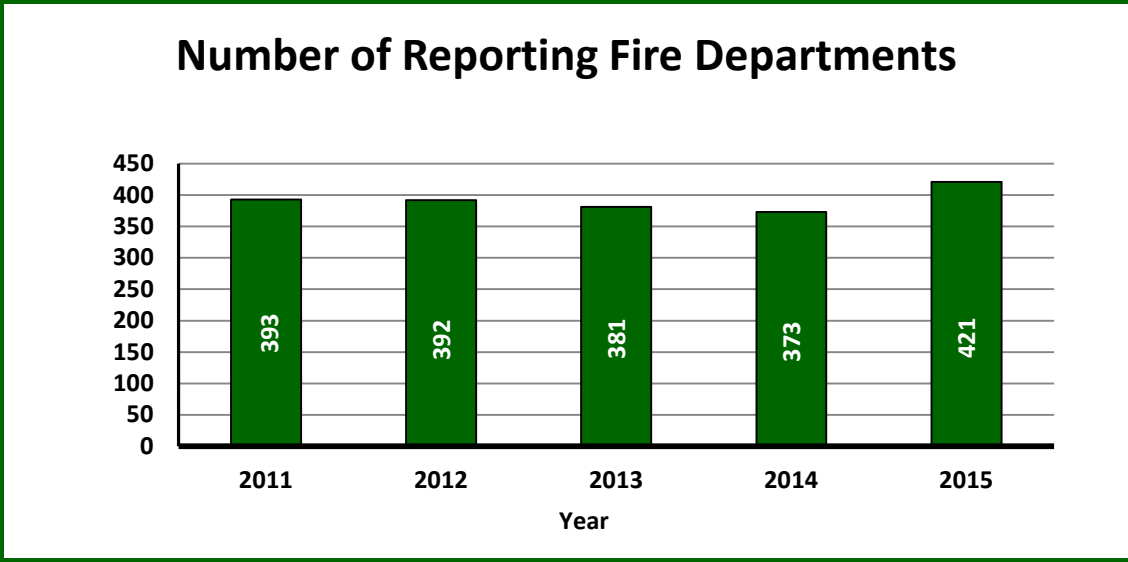
Reporting Fire Departments

§25-2-12(a) (6) Every such local governing authority shall be responsible for investigating all cases of arson and other suspected incendiary fires within its jurisdiction, shall have the duties and powers authorized by Code Sections 25-2-27, 25-2-28, and 25-2-29 in carrying out such responsibility, and shall submit quarterly reports to the state fire marshal containing fire-loss data regarding all fires within its jurisdiction.

§25-2-32 (b) Effective January 1, 1993, all incidents of fires, whether accidental or incendiary, shall be reported to the office of the Safety Fire Commissioner. Every fire department shall submit incident data either via a uniform electronic reporting method or on a uniform reporting form prescribed by the Commissioner and at intervals established by the Commissioner.



The spreadsheet on the next several pages reflects data that was collected on July 21, 2016. The spreadsheet shows reporting fire departments and what years were reported, yellow highlight means 2015 was the first year data was reported, blue means they report to the Department of Defense and gray means no data reported.
